

SAIC Appoints AI Expert Paul Eremenko and Cybersecurity Leader Admiral Mike Rogers to Board of Directors

April 9, 2026

RESTON, Va., April 09, 2026 (GLOBE NEWSWIRE) -- Science Applications International Corp. (NASDAQ: [SAIC](#)) today announced that Paul Eremenko and retired Navy Adm. Michael Rogers have been appointed to its Board of Directors effective immediately. Both will become members of the Audit Committee and the Technology Committee of the Board. Their addition expands the SAIC Board from 11 to 13 members.

Eremenko is currently the CEO and Co-Founder of P-1 AI, a company focused on developing agentic AI for complex systems engineering. His expertise in AI, aerospace research and development, and managing advanced technology organizations position him as a pioneer in driving technological transformation and the ability to provide the Board with crucial insights that will guide strategic decisions.

Adm. Rogers retired in 2018 as a four-star Navy officer after concurrently serving from 2014 to 2018 as both National Security Agency (NSA) Director and Commander of U.S. Cyber Command. Since 2019, he has served as Senior Advisor to the Brunswick Group. His leadership in cybersecurity, intelligence, defense technology, digital innovation, AI, and quantum computing make him uniquely qualified to provide vital insights and governance to the Board.

"I welcome Paul Eremenko and Admiral Mike Rogers to the SAIC Board as we advance our strategy to align investments to federal mission priorities while also driving innovation-led growth and shareholder value," said Donna Morea, SAIC Board Chair. "Their expertise in technology, AI, cybersecurity, and intelligence will be invaluable in accelerating the critical missions of our customers."

More about Paul Eremenko

From 2020 to 2024, he served as CEO of Universal Hydrogen Co., a hydrogen aviation company which flew the world's largest fuel cell-powered passenger airliner. Prior to that, he was Senior Vice President and Chief Technology Officer (CTO) at United Technologies Corporation (UTC) from 2018 to 2019, where he led the 30,000-person engineering function and spearheaded research, technology, and innovation initiatives, and played a key role in the technical due diligence for the merger of UTC's aerospace businesses with Raytheon to form Raytheon Technologies. Before that, Eremenko was CTO of Airbus SE ("Airbus"). He joined Airbus in 2015 as the founding CEO of Acubed, its Silicon Valley innovation center, and also served on the investment committee of Airbus Ventures.

From 2013 to 2015, Eremenko served as Director of Engineering at Google's Advanced Technology and Projects organization, and prior to that at Motorola Mobility. Before Motorola and Google, he was at DARPA, the Defense Advanced Research Projects Agency, first as a Program Manager, and later as the Deputy Director and Acting Director of the Tactical Technology Office, the agency's large systems and platforms office. For his work at DARPA, he was awarded the Distinguished Public Service Medal by the Office of the Secretary of Defense.

Eremenko currently serves on the Board of Directors of Eve Holding Inc. He earned his undergraduate and master's degrees in aeronautics from the Massachusetts Institute of Technology and California Institute of Technology, respectively. He also holds a Juris Doctor degree from Georgetown University and is a private pilot.

More about Adm. Mike Rogers

Adm. Rogers brings more than 37 years of experience and expertise in military operations, cyber operations, intelligence, advanced technology, national security, and the defense of U.S. military networks. He became a Navy flag officer in 2007 and served as Director of Intelligence for U.S. Indo-Pacific Command and the Joint Staff from 2007 to 2011. From 2011 to 2014, he led U.S. Fleet Cyber Command and U.S. Tenth Fleet. Prior to becoming a flag officer, he held numerous assignments from 1981 to 2007 in maritime operations, cryptology, intelligence, and joint operations both afloat and ashore around the world.

Concluding his military career as the NSA Director and Commander of U.S. Cyber Command (2014-2018), Adm. Rogers led the nation's premier signals intelligence organization and the unified command responsible for defending U.S. military networks and conducting cyber operations worldwide. He advised the President, Secretary of Defense, Director of National Intelligence, and Congressional leaders on cyber threats.

Adm. Rogers holds a bachelor's business degree from Auburn University, a master's degree in national security from National Defense University graduating with highest distinction and is a graduate (with distinction) of the U.S. Naval War College. He is also a MIT Seminar XXI fellow and a Harvard University Senior Executive in National Security alum.
