

SAIC and Rogue Space Systems Corporation Partner to Deliver Services for Objects Orbiting Earth

September 20, 2022

Companies will provide small satellite innovations to Space Force

RESTON, Va.--(BUSINESS WIRE)-- Science Applications International Corp. (NYSE: [SAIC](#)) and [Rogue Space Systems Corporation](#) today announced a strategic partnership to develop solutions that provide rapidly deliverable In-Orbit Service Assembly and Manufacturing (ISAM), asset inspection and Space Situational Awareness (SSA).

"Together, SAIC and Rogue bring unique skills and expertise that will support the growing demand for services in earth orbit, the cislunar domain and beyond," said David Ray, senior vice president, Space Business Unit at SAIC. "At SAIC, we continue to participate in the growing global space market. Our mission critical support of space assets supports our national priorities and contributes to the infrastructure needed for the secure use of space."

SAIC will provide development and integration for Rogue's fleet of Orbots.™ These orbital robots will deliver ISAM services to both commercial and government entities.

"From LEO to cislunar space, we are excited to partner with SAIC as we serve the growing demand for ISAM and SSA services," said Jeromy Grimmert, CEO of Rogue Space Systems. "SAIC's knowledge and expertise with U.S. government space organizations has been instrumental in helping us optimize our Orbots' capabilities for a variety of applications. This partnership with SAIC is accelerating

Rogue's plans to seed industry-leading capabilities for ISAM services."

As the primary space integrator for Rogue, SAIC will also help Rogue identify business development opportunities. Rogue is offering a unique portfolio of novel services for the emerging ISAM market as evidenced by several SpaceWERX Orbital Prime contract awards.
