Third Quarter Summary Results

Revenues for the quarter increased \$80 million compared to the same period in the prior year primarily due to ramp up on new and existing contracts, the acquisition of Halfaker and the accelerated amortization on certain off-market liability contracts, partially offset by contract completions. Adjusting for the impact of acquired revenues and divested revenues, revenues grew 2.1% primarily due to net increases in program volume and new awards. We estimate the third quarter program impact from the COVID-19 pandemic to be approximately \$30 million, primarily driven by reduced volume in our supply chain business.

Operating income as a percentage of revenues of 6.0%, decreased from 6.1% in the comparable prior year period primarily due to lower employee benefit costs in the prior year period and higher acquisition and integration costs in the current year period, partially offset by net favorable changes in contract estimates and the accelerated amortization on certain off-market liability contracts.

Adjusted EBITDA⁽¹⁾ as a percentage of revenues for the quarter of 9.0% remained consistent with the same period in the prior year. Net favorable changes in contract estimates and revenue resulting from the accelerated amortization on certain off-market liability contracts were offset by lower

employee benefit costs in the prior year period. We estimate the third quarter program impact from the COVID-19 pandemic to be approximately \$1 million of adjusted EBITDA⁽¹⁾.

Diluted earnings per share for the quarter was \$1.22 compared to \$1.02 in the prior year quarter. Adjusted diluted earnings per share⁽¹⁾ for the quarter was \$1.85 compared to \$1.62 in the prior year quarter. The weighted-average diluted shares outstanding during the quarter decreased to 58.0 million from 58.7 million during the prior year quarter.

Cash Generation and Capital Deployment

Cash flows provided by operating activities for the third quarter were \$134 million, a decrease of \$97 million compared to the prior year quarter, primarily due to working capital related to the impact of payroll tax payments associated with the CARES Act.

Free cash flow⁽¹⁾ for the third quarter decreased by \$98 million from the prior year quarter to \$124 million, primarily due to working capital related to the impact of payroll tax payments associated with the CARES Act.

During the quarter, SAIC deployed \$97 million of capital, consisting of \$63 million of plan share repurchases, \$21 million in cash dividends, \$10 million of capital expenditures and \$3 million for acquisitions. In addition, SAIC made \$23 million of mandatory debt repayment in the third quarter.

⁽¹⁾ Non-GAAP measure, see Schedule 5 for information about this measure.

Quarterly Dividend Declared

Subsequent to the end of the quarter, the Company's Board of Directors declared a cash dividend of \$0.37 per share of the Company's common stock payable on January 28, 2022 to stockholders of record on January 14, 2022. SAIC intends to continue paying dividends on a quarterly basis, although the declaration of any future dividends will be determined by the Board of Directors each quarter and will depend on earnings, financial condition, capital requirements and other factors.

Backlog and Contract Awards

Net bookings for the quarter were approximately \$1.4 billion, which reflects a book-to-bill ratio of 0.7 and a trailing twelve months book-to-bill ratio of 1.1. SAIC's estimated backlog at the end of the quarter was approximately \$24 billion. Of the total backlog amount, approximately \$3.4 billion was funded.

Notable Recompete Awards

U.S. Department of State: SAIC was awarded a twelve month contract extension, valued at \$200 million, to continue providing engineering and design services, security, and operation and maintenance services for critical IT infrastructure.

SAIC was awarded the following contracts subsequent to the end of the quarter which are not included in the current quarter net bookings and book-to-bill:

U.S. Naval Sea Systems Command (NAVSEA): SAIC was awarded a contract, valued at \$1.1 billion, to produce, assemble, test and deliver the U.S. Navy's MK 48 MOD 7 torpedo afterbody tailcones (AB/TC) and MK29 Mod 0 Warshot fuel tanks. Under the contract, SAIC will provide all necessary facilities, resources and management necessary to meet the contract's production, test and delivery requirements.

Fiscal Year 2022 Guidance

As a result of the Company's year-to-date performance and future expectations, including expected impacts from the COVID-19 pandemic, the Company is updating previously provided fiscal year 2022 guidance. The guidance assumes expected negative COVID-19 impact of approximately \$125 million in revenue and approximately \$10 million in adjusted EBITDA. The table below summarizes fiscal year 2022 guidance and represents our views as of December 6, 2021.

	Current Fiscal Year 2022 Guidance	Prior Fiscal Year 2022 Guidance
Revenue	\$7.35 billion - \$7.40 billion	\$7.30 billion - \$7.40 billion
Adjusted EBITDA Margin ⁽¹⁾	9.0% to 9.1%	8.9% to 9.0%
Adjusted Diluted EPS ⁽¹⁾	\$6.75 - \$6.95	\$6.50 - \$6.70
Free Cash Flow ⁽¹⁾	\$450 million - \$470 million	\$430 million to \$470 million

GAAP to Non-GAAP Guidance Reconciliation

The Company does not provide a reconciliation of forward-looking adjusted diluted EPS to GAAP diluted EPS or adjusted EBITDA margin to GAAP

net income due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliation, including, but not limited to, amortization of acquired intangible assets and acquisition, integration and restructuring costs. As a result, the Company is not able to forecast GAAP diluted EPS or GAAP net income with reasonable certainty. The variability of the above charges may have an unpredictable and potentially significant impact on our future GAAP financial results.

(1) Non-GAAP measure, see Schedule 5 for information about this measure.

BACKLOG
(Unaudited)

The estimated value of our total backlog as of the dates presented was:

	October 29, 2021	July 30, 2021	January 29, 2021
	(in millions)		
Funded backlog	\$ 3,441	\$ 3,299	\$ 3,024
Negotiated unfunded backlog	20,213	20,938	18,524
Total backlog	\$ 23,654	\$24,237	\$ 21,548

Backlog represents the estimated amount of future revenues to be recognized under negotiated contracts and task orders as work is performed and excludes contract awards which have been protested by competitors until the protest is resolved in our favor. SAIC segregates backlog into two categories, funded backlog and negotiated unfunded backlog. Funded backlog for contracts with government agencies primarily represents contracts for which funding is appropriated less revenues previously recognized on these contracts, and does not include the unfunded portion of contracts where funding is incrementally appropriated or authorized by the U.S. government and other customers even though the contract may call for performance over a number of years. Funded backlog for contracts with non-government agencies represents the estimated value of contracts which may cover multiple future years under which SAIC is obligated to perform, less revenues previously recognized on these contracts. Negotiated unfunded backlog represents the estimated future revenues to be earned from negotiated contracts for which funding has not been appropriated or authorized, and unexercised priced contract options. Negotiated unfunded backlog does not include any estimate of future potential task orders expected to be awarded under indefinite-delivery, indefinite-quantity (IDIQ), U.S. General Services Administration (GSA) schedules or other master agreement contract vehicles.

This schedule describes the non-GAAP financial measures included in this earnings release. While we believe that these non-GAAP financial measures may be useful in evaluating our financial information, they should be considered as supplemental in nature and not as a substitute for financial information prepared in accordance with GAAP. Reconciliations, definitions, and how we believe these measures are useful to management and investors are provided below. Other companies may define similar measures differently.

Adjusted operating income⁽¹⁾	\$ 126	\$ 115	\$ 413	\$ 336
Adjusted operating income as a percentage of revenues	6.6 %	6.3 %	7.4 %	6.3 %

EBITDA is a performance measure that is calculated by taking net income and excluding interest and loss on sale of receivables, provision for income taxes, and depreciation and amortization. Adjusted EBITDA and adjusted operating income are performance measures that exclude acquisition and integration costs, impairments, restructuring costs, and any other material non-recurring costs that we do not consider to be indicative of our ongoing

operating performance. The acquisition and integration costs relate to the Company's acquisitions of Engility, Unisys Federal, Halfaker and Associates and Koverse. The recovery of acquisition and integration costs and restructuring and impairment costs relate to costs recovered through the Company's indirect rates in accordance with Cost Accounting Standards. We believe that these performance measures provide management and investors with useful information in assessing trends in our ongoing operating performance and may provide greater visibility in understanding the long-term financial performance of the Company.

Adjusted diluted earnings per share⁽¹⁾	\$ 1.85	\$ 1.62	\$ 5.76	\$ 4.61

Adjusted diluted earnings per share is a performance measure that excludes acquisition and integration costs, impairments, restructuring costs, and any other material non-recurring costs that we do not consider to be indicative of our ongoing operating performance. The acquisition and integration costs relate to the Company's acquisitions of Engility, Unisys Federal, Halfaker and Associates and Koverse. The acquisition and integration costs and restructuring and impairment costs are net of the portion of costs recovered through the Company's indirect rates in accordance with Cost Accounting Standards. Adjusted diluted earnings per share also excludes amortization of intangible assets because we do not have a history of significant acquisition activity, we do not acquire businesses on a predictable cycle, and the amount of an acquisition's purchase price allocated to intangible assets and the related amortization term are unique to each acquisition. We believe that this performance measure provides management and investors with useful information in assessing trends in our ongoing operating performance and may provide greater visibility in understanding the long-term financial performance of the Company.

(in millions)

Net cash provided by operating activities	\$495 to \$525

Free cash flow is calculated by taking cash flows provided by operating activities less expenditures for property, plant, and equipment and less cash flows from our Master Accounts Receivable Purchasing Agreement (MARPA Facility) for the sale of certain designated eligible U.S. government receivables. Under the MARPA Facility, the Company can sell eligible receivables up to a maximum amount of \$300 million. We believe that free cash flow provides management and investors with useful information in assessing trends in our cash flows and in comparing them to other peer companies, many of whom present a similar non-GAAP liquidity measure. This measure should not be considered as a measure of residual cash flow

available for discretionary purposes.
