Company to provide IT services support to Langley Research Center

MCLEAN, Va.--(BUSINESS WIRE)--Science Applications International Corp. (NYSE: SAIC) announced today it was awarded NASA’s Langley Information Technology Enhanced Services II (LITES II) contract. The firm-fixed-price, single-award, indefinite-delivery, indefinite-quantity contract has a five-year period of performance and contract value of $200 million.

Under the contract, SAIC will provide Langley Research Center with a variety of IT support services in the areas of science and engineering applications, center infrastructure applications, data center support, business management applications support, and IT project management support. The work also includes traditional IT services and specialized IT involving the development, maintenance and operation of science and engineering software used in modeling and simulation. Work will be performed primarily in Hampton, Virginia.

“SAIC has a long legacy with NASA and we are excited to expand our support of NASA’s mission at Langley Research Center,” said Bob Genter, SAIC senior vice president and general manager of the Federal Civilian Customer Group.

About SAIC

SAIC is a premier technology integrator providing full life cycle services and solutions in the technical, engineering, intelligence, and enterprise information technology markets. SAIC is Redefining Ingenuity through its deep customer and domain knowledge to enable the delivery of systems engineering and integration offerings for large, complex projects. SAIC’s approximately 15,000 employees are driven by integrity and mission focus to serve customers in the U.S. federal government. Headquartered in McLean, Virginia, SAIC has annual revenues of approximately $4.4 billion. For more information, visit saic.com. For ongoing news, please visit our newsroom.
