# Forward-Looking Statements

REDEFINING  
INGENUITY

Certain statements in this release contain or are based on “forward-looking” information within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by words such as “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “guidance,” and similar words or phrases. Forward-looking statements in this release include, among others, estimates of future revenues, operating income, earnings, earnings per share, charges, backlog, outstanding shares and cash flows, as well as statements about future dividends, share repurchases and other capital deployment plans. These statements reflect our belief and assumptions as to future events that may not prove to be accurate. Actual performance and results may differ materially from estimates of future performance and other forward-looking statements made in this release depending on a variety of factors, including: developments in the U.S. government defense budget, including budget reductions, implementation of spending cuts (sequestration) or changes in budgetary priorities; delays in the U.S. government budget process or approval to raise the U.S. debt ceiling; delays in the U.S. government contract procurement process or the award of contracts; delays or loss of contracts as result of competitor protests; changes in U.S. government procurement rules, regulations and practices; our compliance with various U.S. government and other government procurement rules and regulations; governmental reviews, audits and investigations of our company; our ability to effectively compete and win contracts with the U.S. government and other customers; our ability to retain key employees and customers of Scitor Holdings, Inc. and its subsidiaries (collectively, Scitor) following our acquisition of Scitor in the second quarter of fiscal 2016; our ability to successfully integrate Scitor, including implementing IT and other control systems relating to Scitor’s operations; our ability to generate sufficient earnings to meet the required leverage ratio under our credit facilities following the acquisition of Scitor, which if unsuccessful would give lenders the right to, among other things, foreclose on all our assets; our ability to attract, train and retain skilled employees, including our management team, and to obtain security clearances for our employees; our ability to accurately estimate costs associated with our firm-fixed-price and other contracts; cybersecurity, data security or other security threats, systems failures or other disruptions of our business; resolution of legal and other disputes with our customers and others or legal or regulatory compliance issues; our ability to effectively deploy capital and make investments in our business; our ability to maintain relationships with prime contractors, subcontractors and joint venture partners; our ability to manage performance and other risks related to customer contracts, including complex engineering projects; the adequacy of our insurance programs designed to protect us from significant product or other liability claims; our ability to declare future dividends based on our earnings, financial condition, capital requirements and other factors, including compliance with applicable laws and contractual agreements; risks associated with our recently completed spin-off transaction from our former parent, such as protests of awards of contracts to us bid before completion of the spin-off or novation of contract vehicles to us or a failure to realize the expected benefits of the spin-off; and our ability to execute our business plan and long-term management initiatives effectively and to overcome these and other known and unknown risks that we face. The above-outlined risks apply to our current company, including the operations of Scitor. These are only some of the factors that may affect the forward-looking statements contained in this release. For further information concerning risks and uncertainties associated with our business, please refer to the filings we make from time to time with the U.S. Securities and Exchange Commission, including the “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Legal Proceedings” sections of our Annual Report on Form 10-K which may be viewed or obtained through the Investor Relations section of our web site at [www.saic.com](http://www.saic.com).

In addition, these slides should be read in conjunction with our earnings press release dated June 9, 2015 along with listening to or reading a transcript of the management comments delivered in an earnings conference call held on June 9, 2015.

All information in these slides are as of June 9, 2015. SAIC expressly disclaims any duty to update any forward-looking statement provided in this release to reflect subsequent events, actual results or changes in SAIC’s expectations. SAIC also disclaims any duty to comment upon or correct information that may be contained in reports published by investment analysts or others.

# Non-GAAP Reconciliation – Adjusted Operating Income

REDEFINING  
INGENUITY

“Adjusted operating income” and “Adjusted operating margin” are non-GAAP financial measures that are reconciled in this schedule to the most directly comparable GAAP financial measures. These non-GAAP financial measures provide investors with greater visibility into operating income and cash flows provided by operating activities, but they are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with SAIC's consolidated financial statements prepared in accordance with GAAP. The methods used to calculate these non-GAAP financial measures may differ from the methods used by other companies and so similarly titled non-GAAP financial measures presented by other companies may not be comparable to those provided in this schedule.
